

EVERYTHING UNDER THE SUN (SOLARIUM, CHIEF BACKSIDE).

FA: Brian Pegg, Karl Manzer, Damien McCombs, June 2006

Start rappel here

ACCESS: Find the top of Sunblessed. Walk 60 m north to a pleasant ledge with three stunted pine trees and a glinty shiny rappel station. Rappel three 30 m pitches to the Secret Garden.

Alternately, find Above and Beyond as per "Climber's Guide to Squamish". Follow south (left) along the bottom of the cliff, up a fixed line, then 60 m south past a broken rockfall area to the base.

Raven Ledge; reachable only on rappel

THE ROUTE: Everything Under the Sun is a route specializing in atmosphere, with the whole valley of Olesen Creek under your heels, and Mamquam brooding in the background. The climbing has a bit of everything, from crack to slab to layback to huge dyke holds.

GEAR: Standard rack with small cams (purple tcu, black alien); 60 m rope (two ropes better). Watch for rope drag, especially on the undercling sections.

Secret Garden Ledge

ROUTE DESCRIPTION: **Pitch 1.** Climb a dihedral to a face crack with great dyke holds. Handrail right to below a roof. Undercling the roof (thin) to a great sidepull at the right end. 30 m, 5.10b. **Pitch 2.** Up to the bottom of another roof, undercling right to great holds. Traverse right along the dyke with expanding air below, then up through a roof on huge holds to a wild layback finish. 30 m, 5.10b. **Pitch 3.** Up to an undercling, then left to a shallow crack (bolt). Up this to finish on a short slab section. 25 m, 5.10a.
