

Chek Canyon's Pleasure Dome

Directions

Park at Chek's lower lot. Walk about 200m north on Hwy 99. From the parking spot there are 4 traffic signs on the west side of the road for the south bound traffic. Walk to the fourth sign and then look for the trail heading up the short sandy slope. The trail quickly improves and takes you directly to the base of the crag.

The crag is generally east facing and receives sun in the morning and shade in the afternoon / evening.

All the routes have their names painted on the rock at the base so they are very easy to find. All you need is a 50 meter rope to get on any climb at this crag.

- ☐ 1. Excellent Adventure (project)
This route is still being established so stay off for now.
- ☐ 2. Cornucopia - 5.10a (8 draws)
This is really the only warmup but it gets hard fast so make sure you stretch. It starts at the far left of the wall on some blocky / triangular formed rock.
- ☐ 3. Easy Prey - 5.11b (10 draws)
Great moderate route lots of fun with a variety of holds. Starts up a distinct crack line and then follow the bolts. Go left at the fork in the rock.
- ☐ 4. Technoambush - 5.12b (10 draws)
Get ready to grab crimpers, if you like big holds don't even bother putting your shoes on. Starts a couple meters right of Easy Prey.
- ☐ 5. XTC - 5.12d (6 draws 'Cold Shut Anchors')
At the fourth or fifth bolt branch out right for two more draws to a shorter but more difficult finish.
- ☐ 6. Ibiza - 5.13b/c (8 draws 'Cold Shut Anchors')
Starts just to the left of the big blank face.
- ☐ 7. ??? - (project)
No bolts yet but soon to be another great route.
- ☐ 8. Go For The Spine - 5.12b (8 draws 'Cold Shut Anchors')
Fun powerful climbing over a couple bulges. Have fun ;) Starts at the far left of the wall on top of the rock ledge. Best to belay from the ground. There are two bolts below the ledge you can use if you see fit.
